The Grundtvig programme focuses on the teaching and study needs of learners taking adult education and ‘alternative’ education courses, as well as the organisations delivering these services. It aims to help develop the adult education sector, as well as enable more people to undertake learning experiences, notably in other European countries.

Grundtvig aims to provide adults with more ways to improve their knowledge and skills, facilitate their personal development and boost their employment prospects. It also helps to tackle problems associated with Europe’s ageing population.

It covers not only teachers, trainers, staff and organisations working in the sector, but also learners in adult education. The programme funds a range of activities, including particularly those supporting adult learning staff to travel abroad for learning experiences, through exchanges and various other professional experiences. Other larger scale initiatives involve, for instance, networking and partnerships between organisations in different countries.

B-Act partnership aims to increase interest in reading by sharing ideas and knowledge. The project main goal is to develop new methods of approach reading activities in order to attract public to the library. Activities planned during project meetings will focus on discovery the most appropriate methods of presenting texts in artistic manner and their application in public reading sessions.

Regarding the target audience, the project aims to introduce personal development tools for the integration of disadvantaged people, those with special needs and seniors in reading activities. Training sessions and workshops have both methodological components and practical. Thus we combine theoretical presentations with discussions and demonstrations. All documents will be uploaded on the project web site so that they can be used both local and European level.

Books Like Acting Project follows European Lifelong Learning concept according to which the personal development is a must and can be achieved through education regardless of age.
